GLPP HIIN Data Review: MICAH

Prepared by Megan Black

MICAH QN Meeting, November 9, 2017

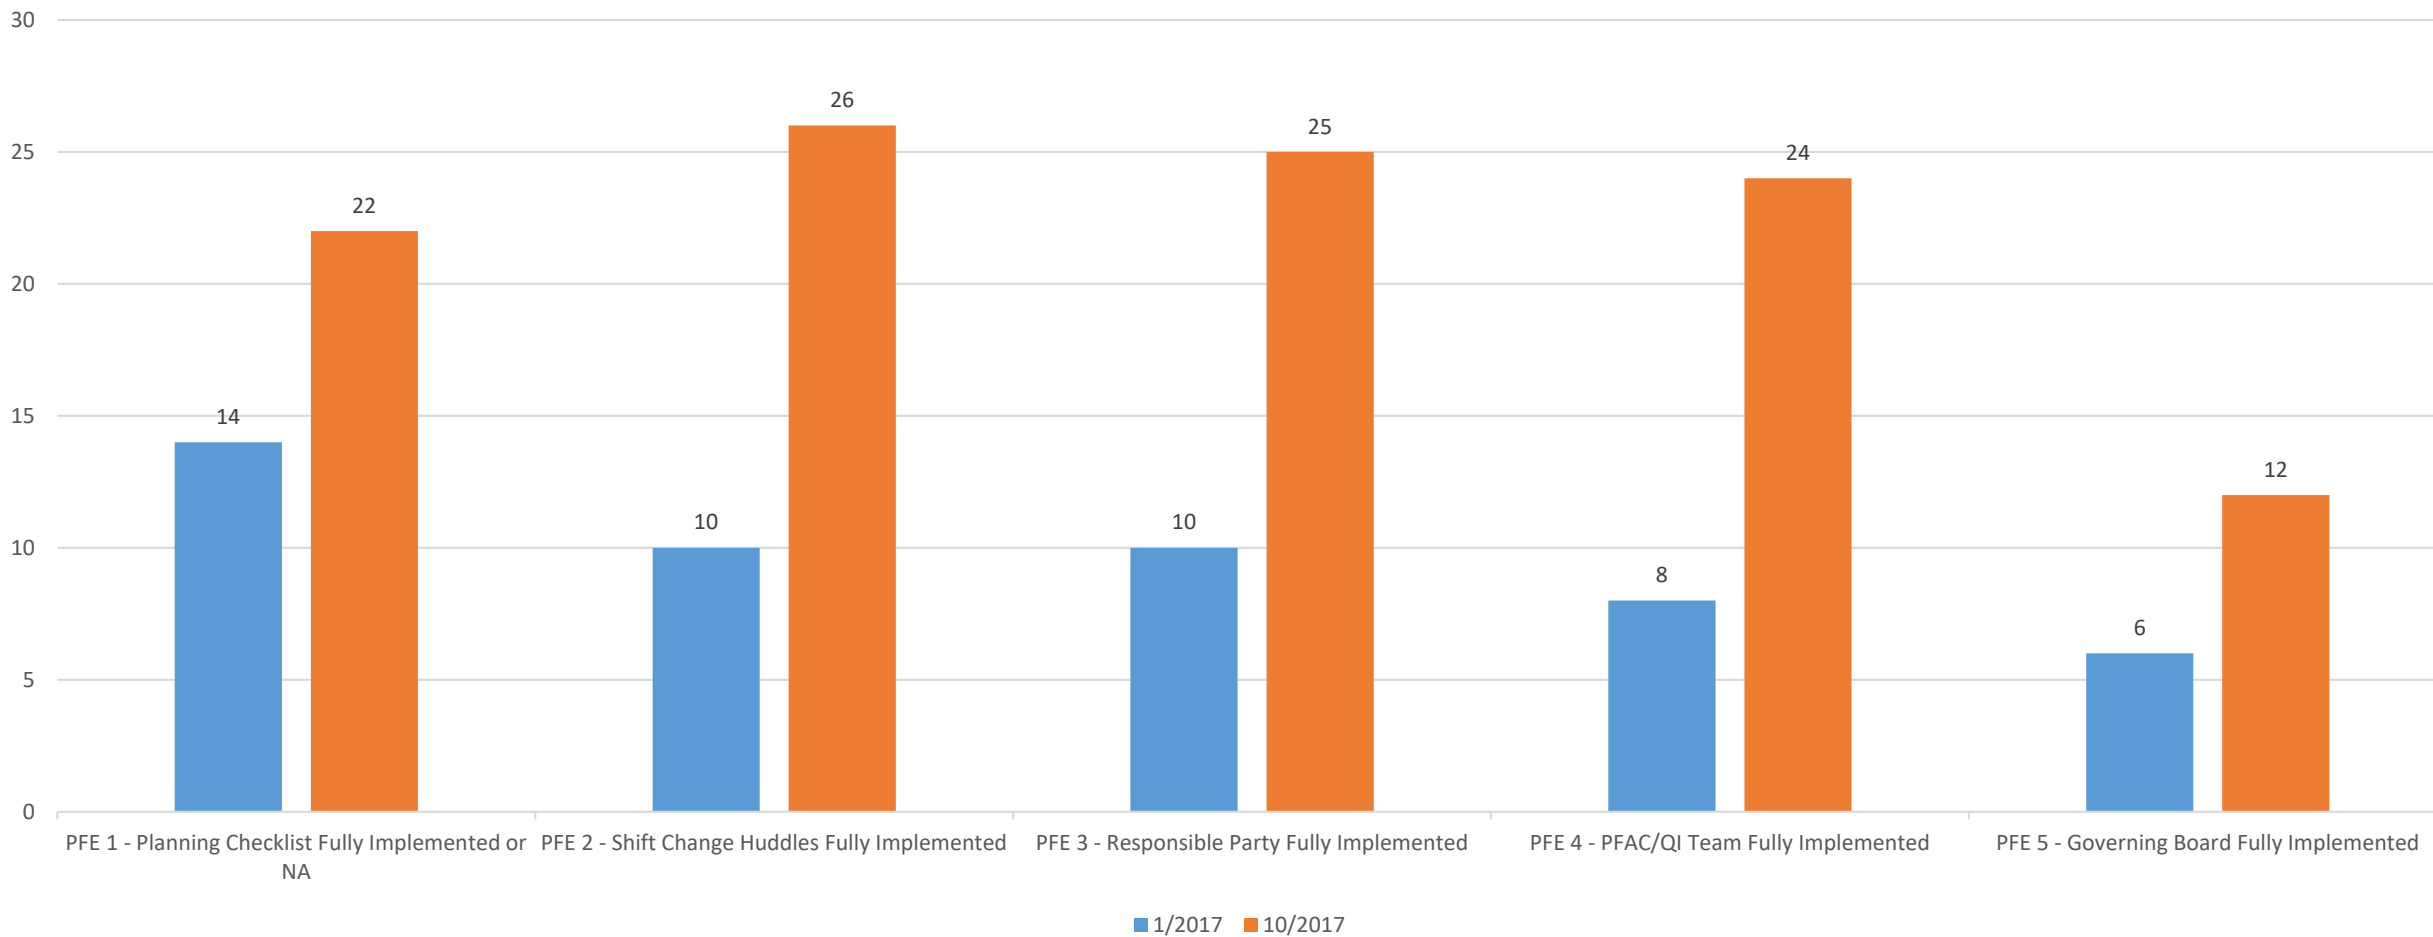

PFE Status (Detail)

PFE Elements Status

PFE Status

PFE Elements Fully Implemented

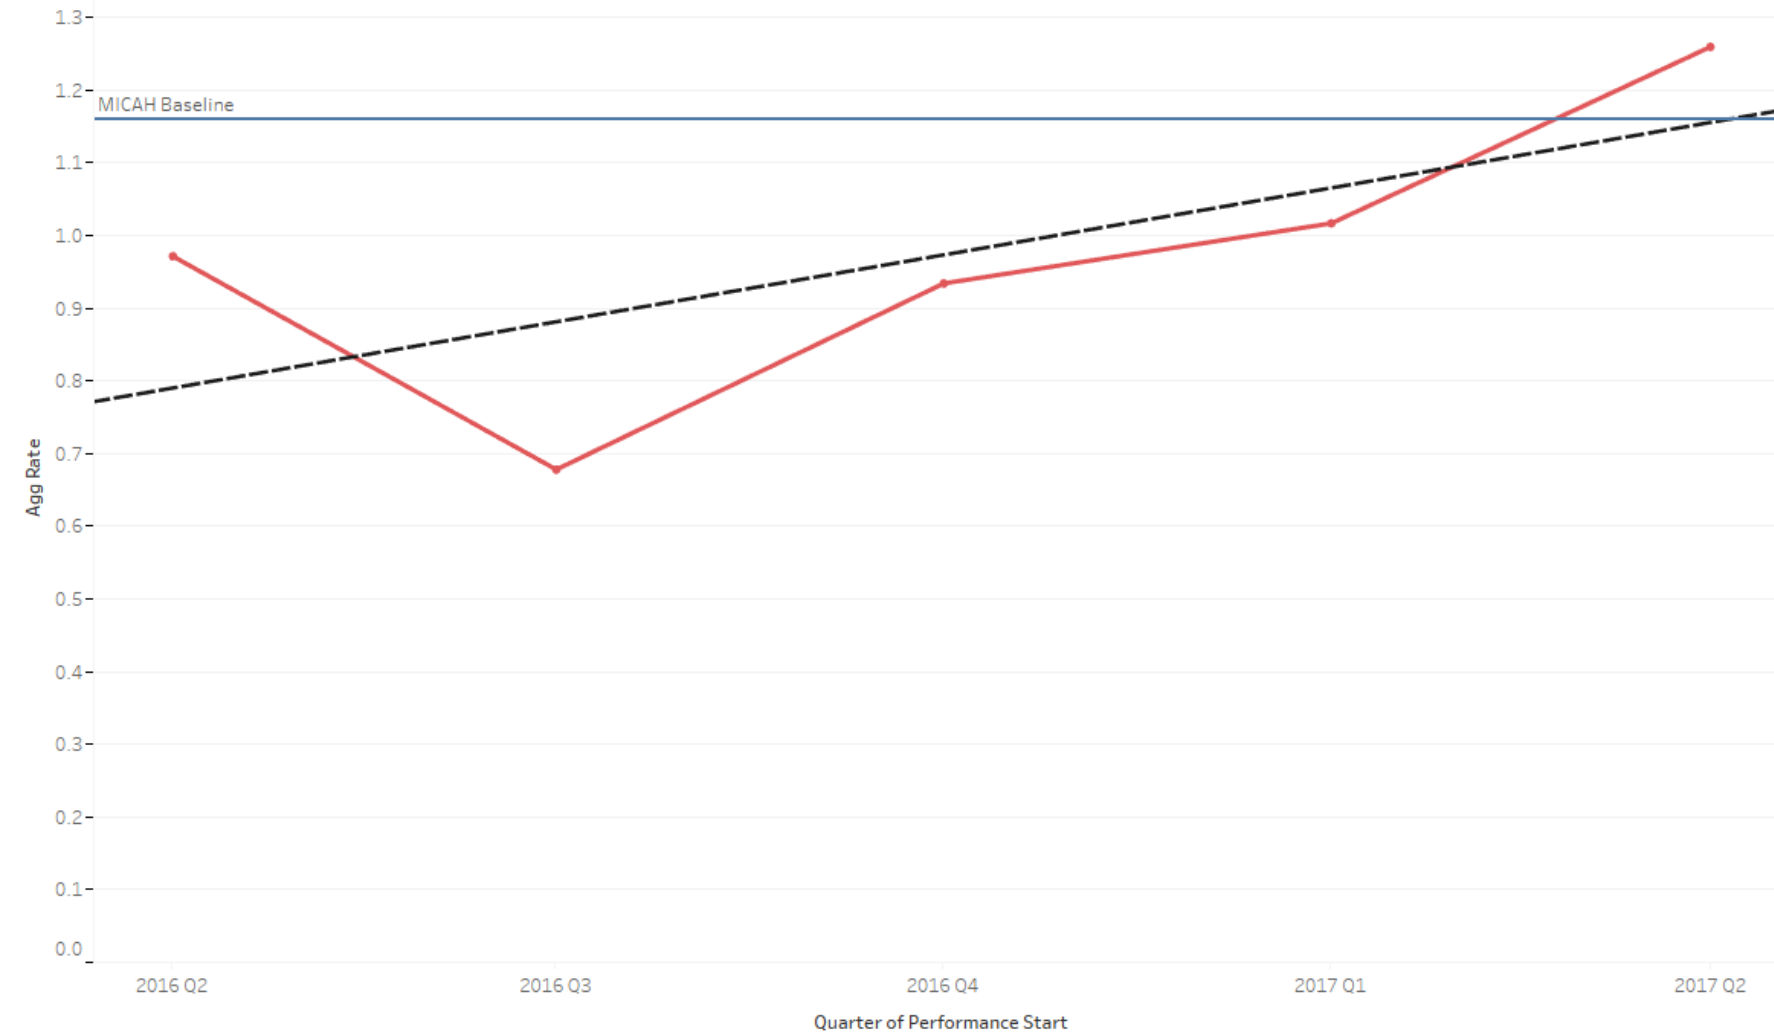

MICAH > GLPP HIIN Performance

- (PSI-03) Aggregate Rate of Stage III, IV, Unstageable Pressure Ulcers
- (PSI-12) Aggregate Rate of Perioperative PE or DVT (per 1000)
- (PSI-13) Aggregate Rate of Post-Operative Sepsis (per 1000)
- ADE - Excessive Anticoagulation with Warfarin Aggregate Rate
- ADE - Hypoglycemia in Inpatients Receiving Insulin Aggregate Rate
- Aggregate Catheter Utilization Ratio (HIIN)
- Aggregate CAUTI Rate by Device Days (HIIN) (per 1000)
- Aggregate CAUTI SIR
- Aggregate Central-line Utilization Ratio
- Aggregate CLABSI Rate by Central-line Days (per 1000)
- Aggregate HO CDI Incidence Rate (per 10,000)
- Aggregate sepsis mortality rate (ICD-10)
- Aggregate SSI Rate (COLO, HYST, HPRO, KPRO)
 - *COLO & HYST infection rates better, but Hip & Knee replacements are worse*

Congratulations!

Falls with Injury

MICAH Report: Falls-1

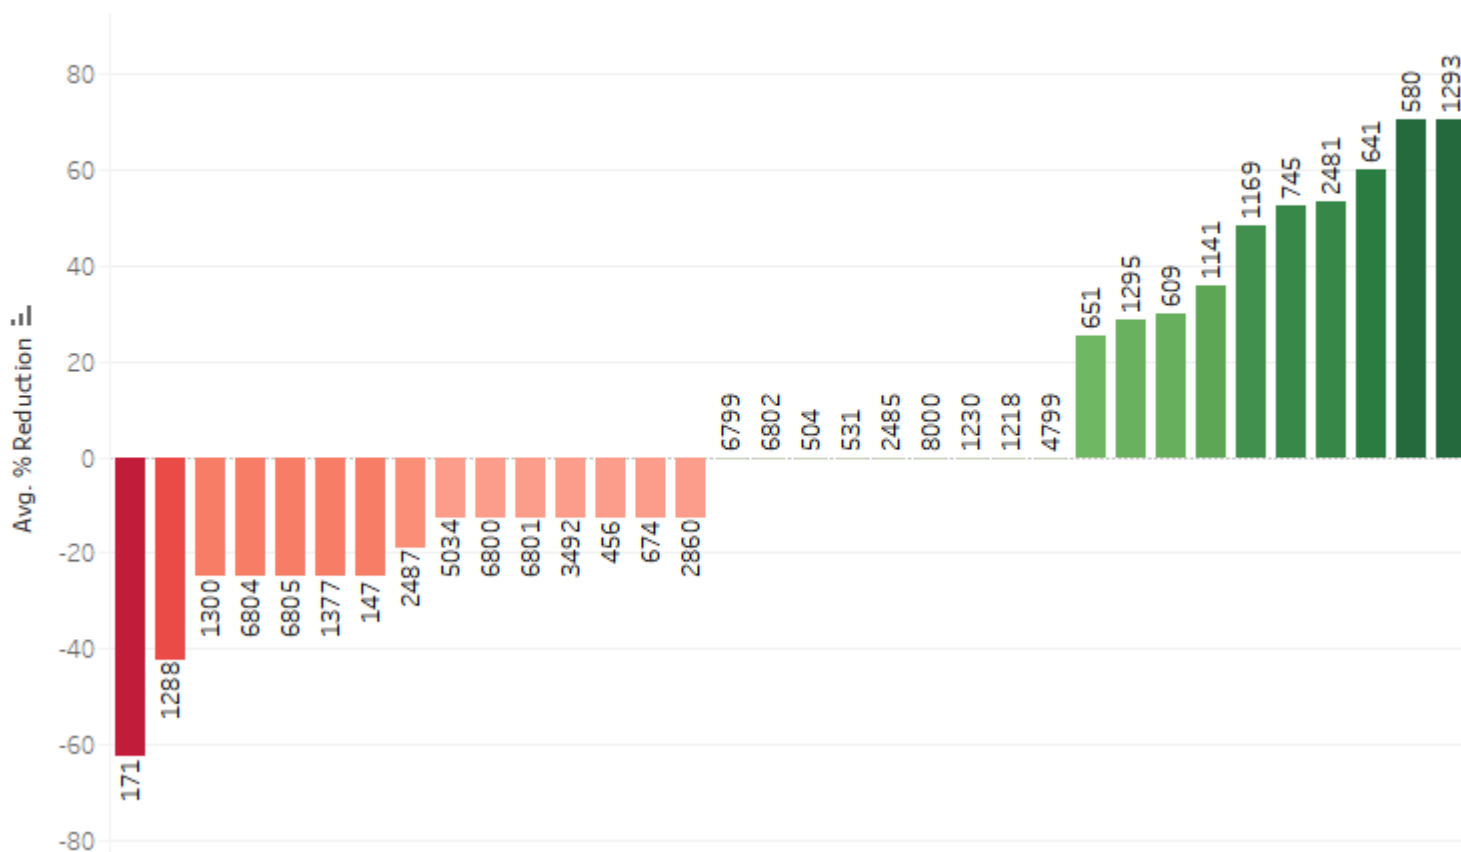

Rate **INCREASING**

Current Rate **HIGHER**
than Baseline

Baseline = 31 facilities

Falls with Injury

MICAH Report: Falls-1

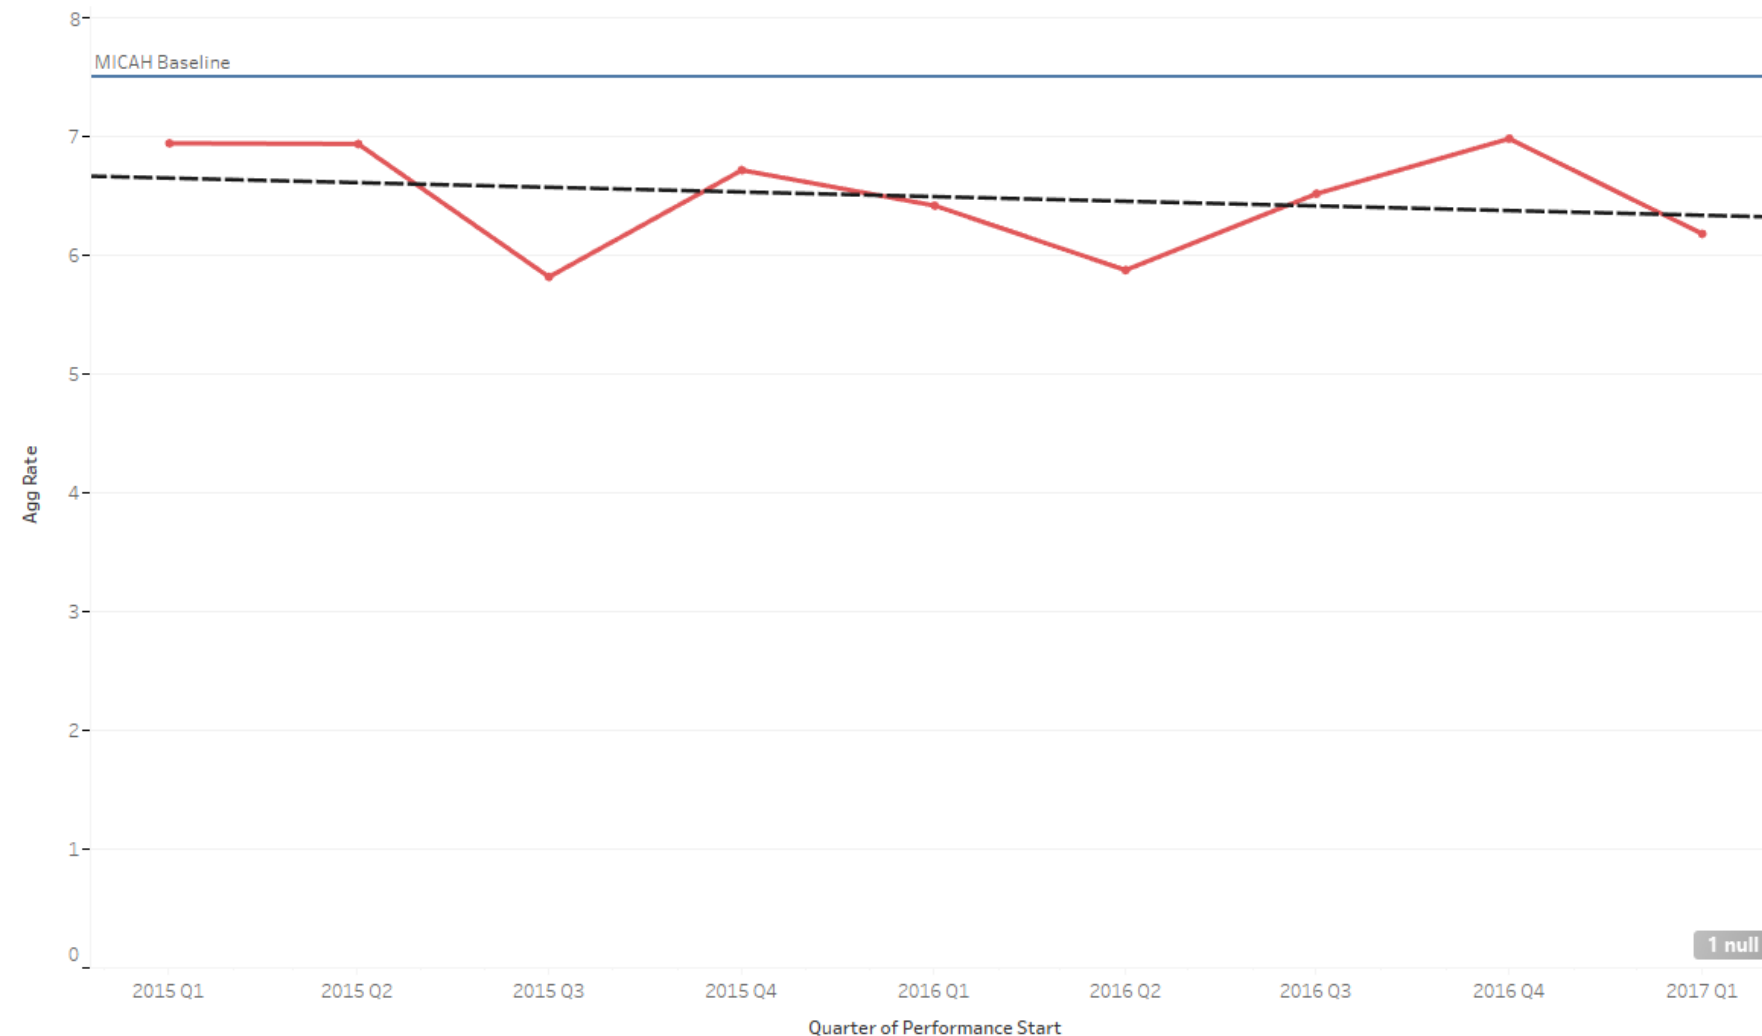

If you were part of HEN 2.0 your baseline is Q1 2016.

If you joined for HIIN your baseline is Q4 2016.

Readmissions to Same Facility

MICAH Report: READ-1 (same)

Rate **DECREASING**

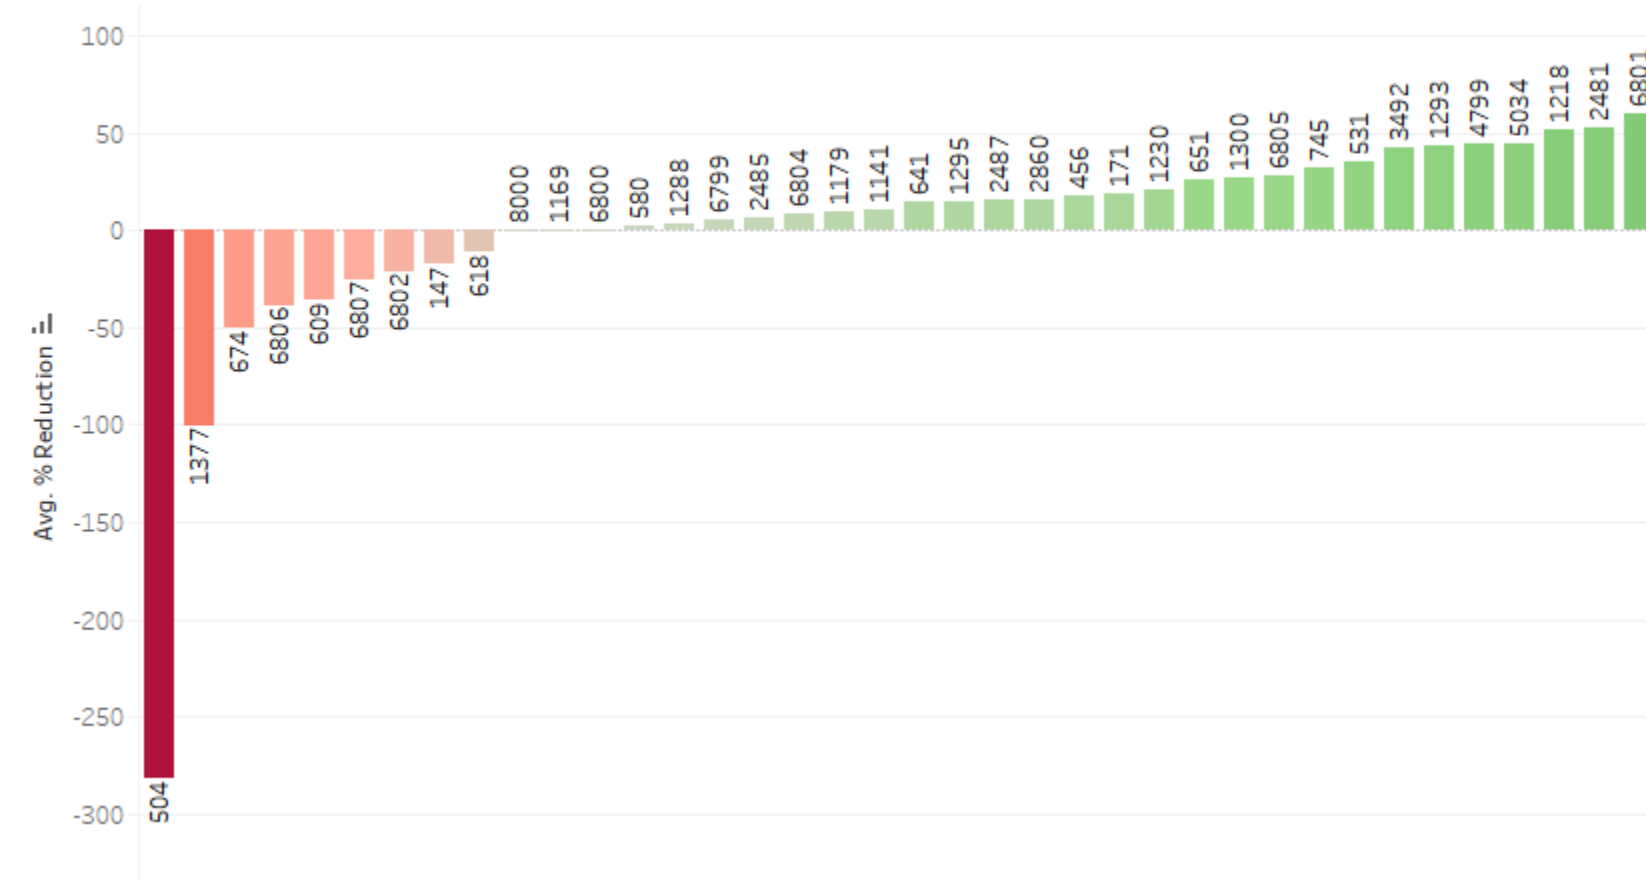

Current Rate **LOWER**
than Baseline

Baseline = 39 facilities

Baseline - 2014

Readmissions to Same Facility

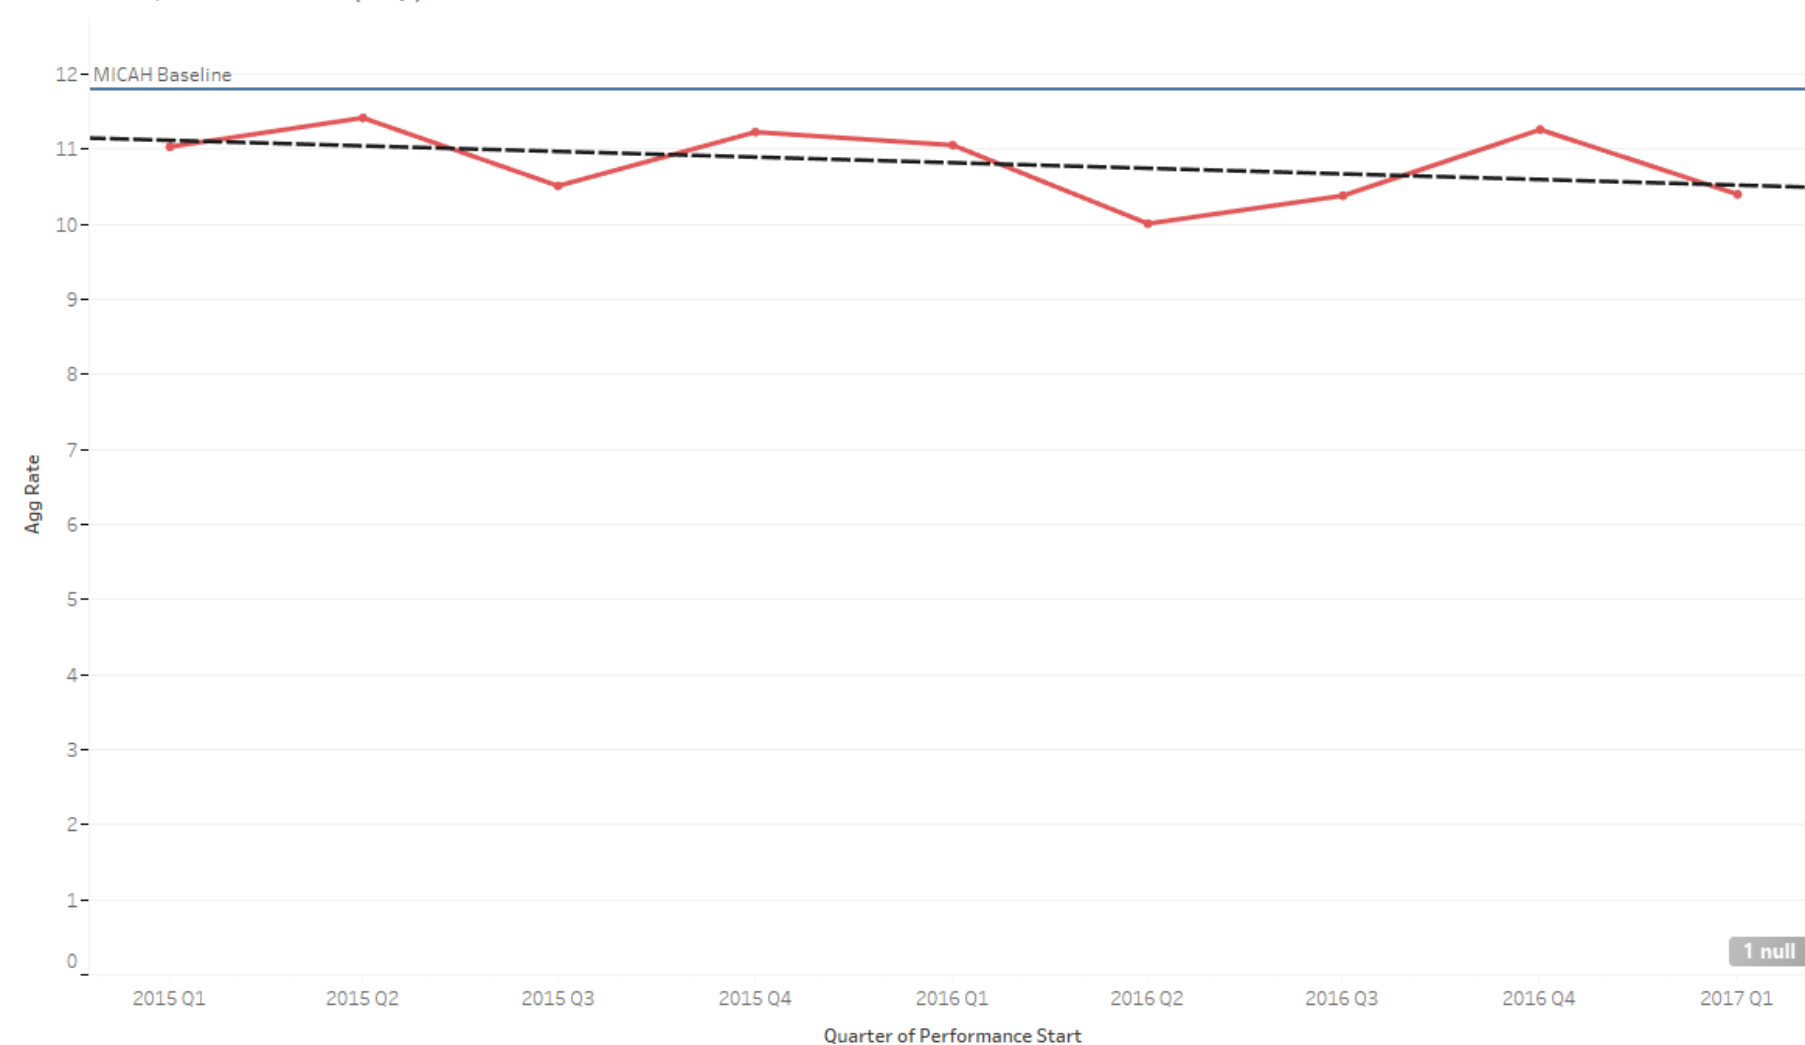

MICAH Report: READ-1 (same)

Baseline - 2014

Readmissions to Any Facility

MICAH Report: READ-2 (any)

Rate **DECREASING**

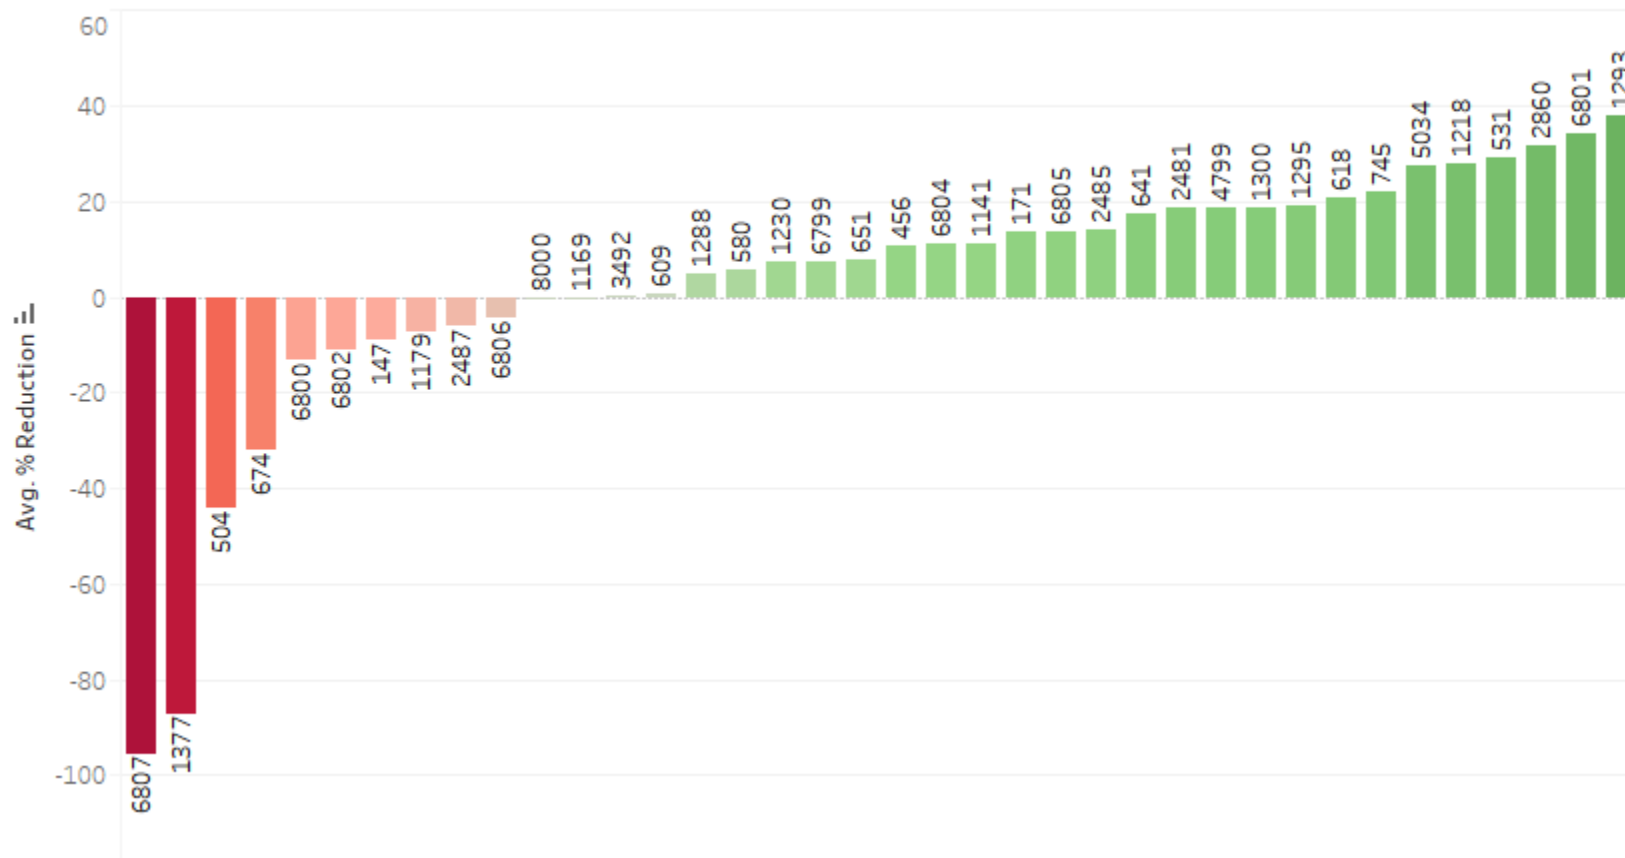

Current Rate **LOWER**
than Baseline

Baseline = 39 facilities

Baseline - 2014

Readmissions to Any Facility

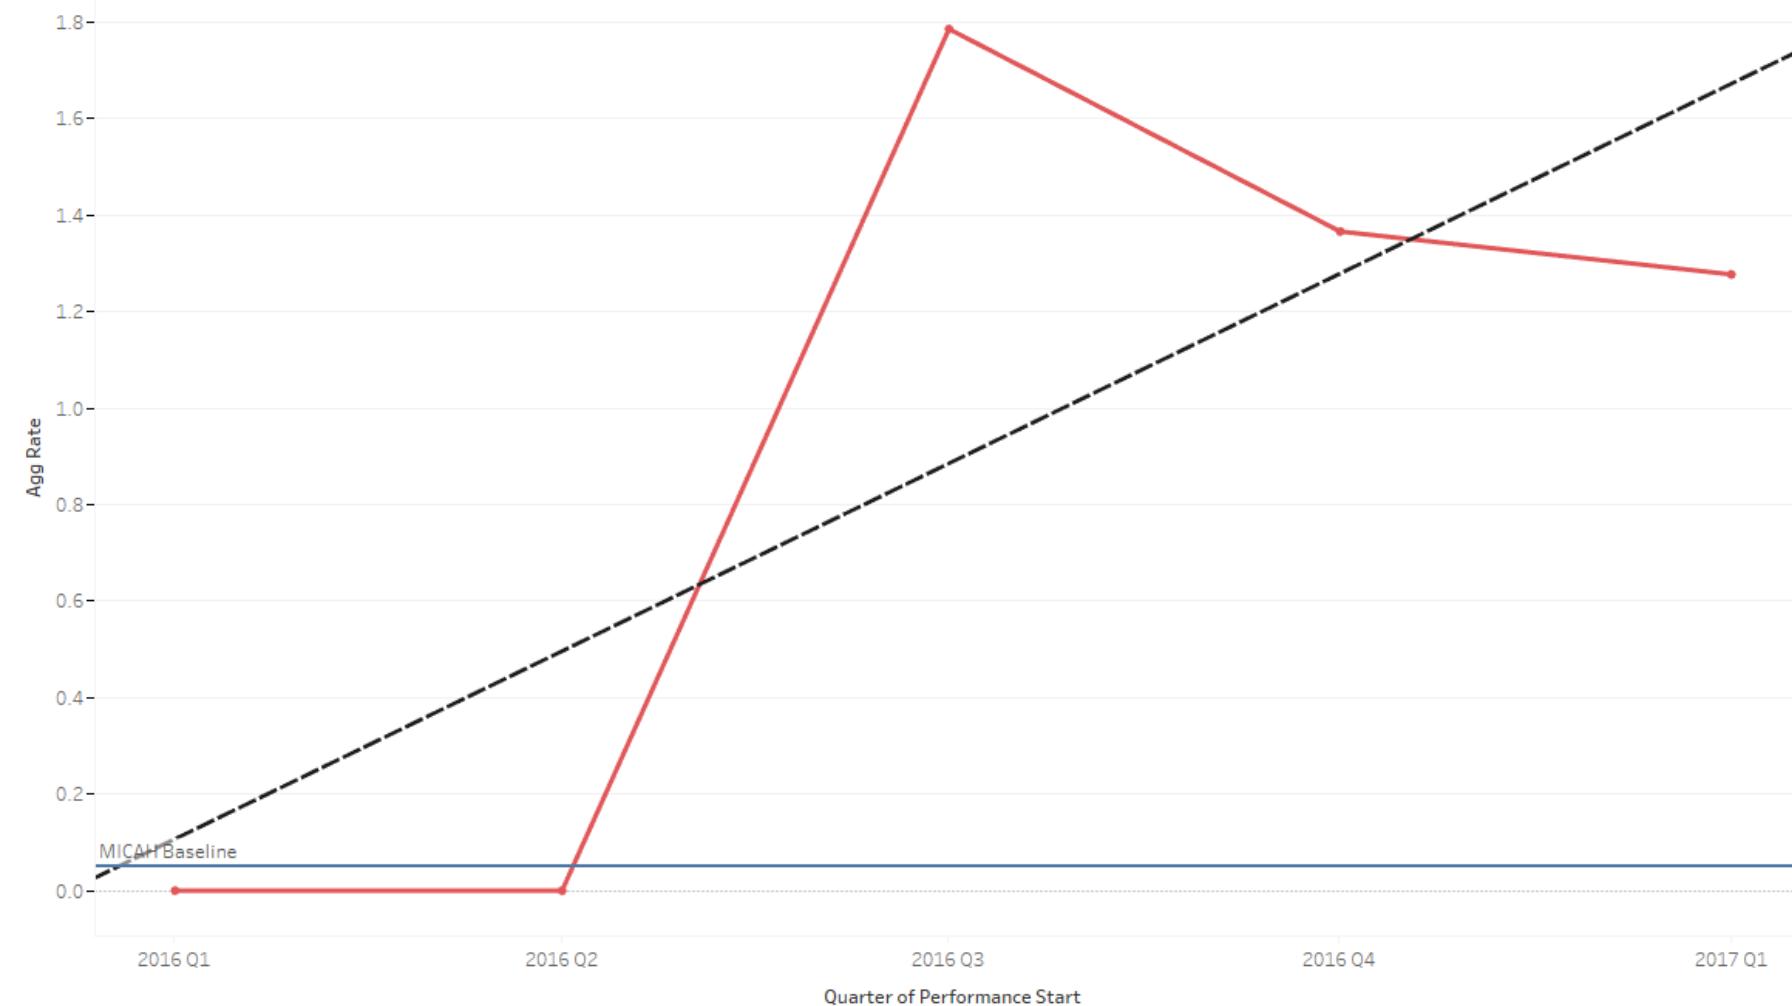

MICAH Report: READ-2 (any)

Baseline - 2014

CLABSI Rate

MICAH Report: CLABSI-2a (rate - all units)

Rate **INCREASING**

Current Rate **HIGHER**
than Baseline

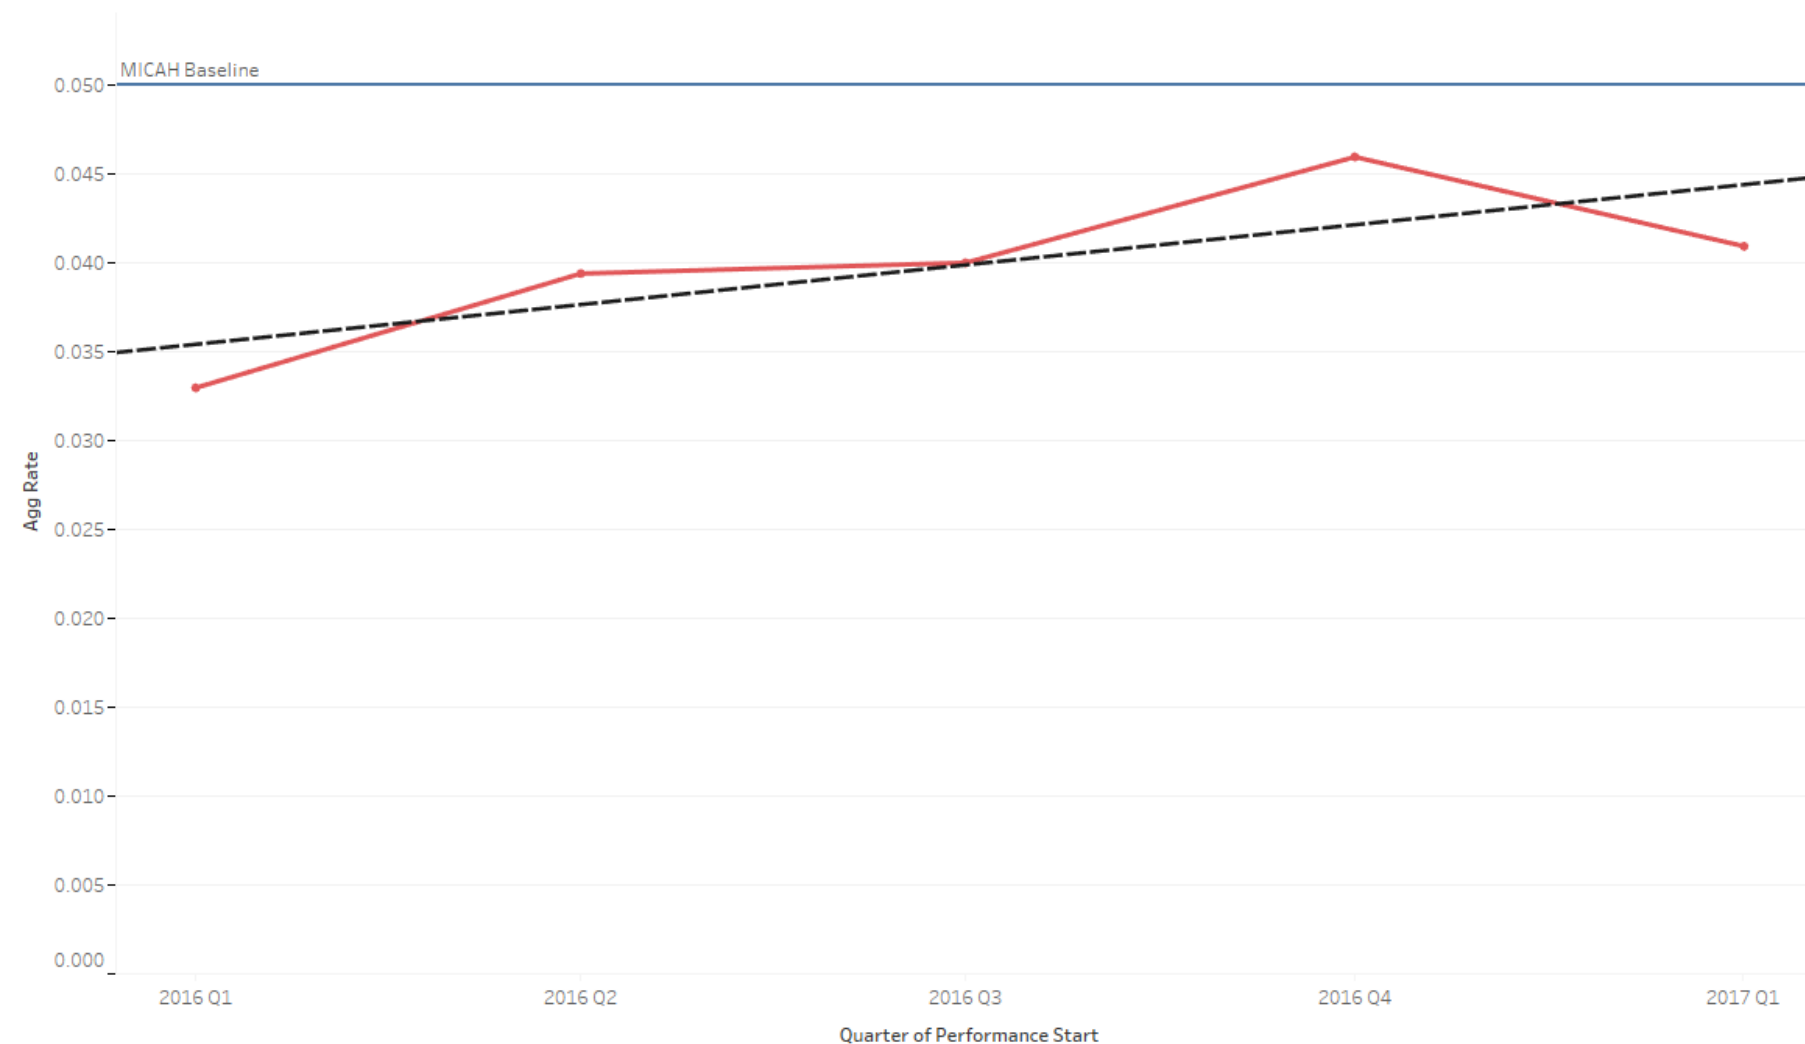

Baseline = 20 facilities

Baseline rate for peer group was 0, and infection count for these three quarters was only 1, causing the rate spikes.

Consider the Central Line Utilization Ratio... (next slide)

Central Line Utilization Ratio

MICAH Report: CLABSI-3a (utilization - all units)

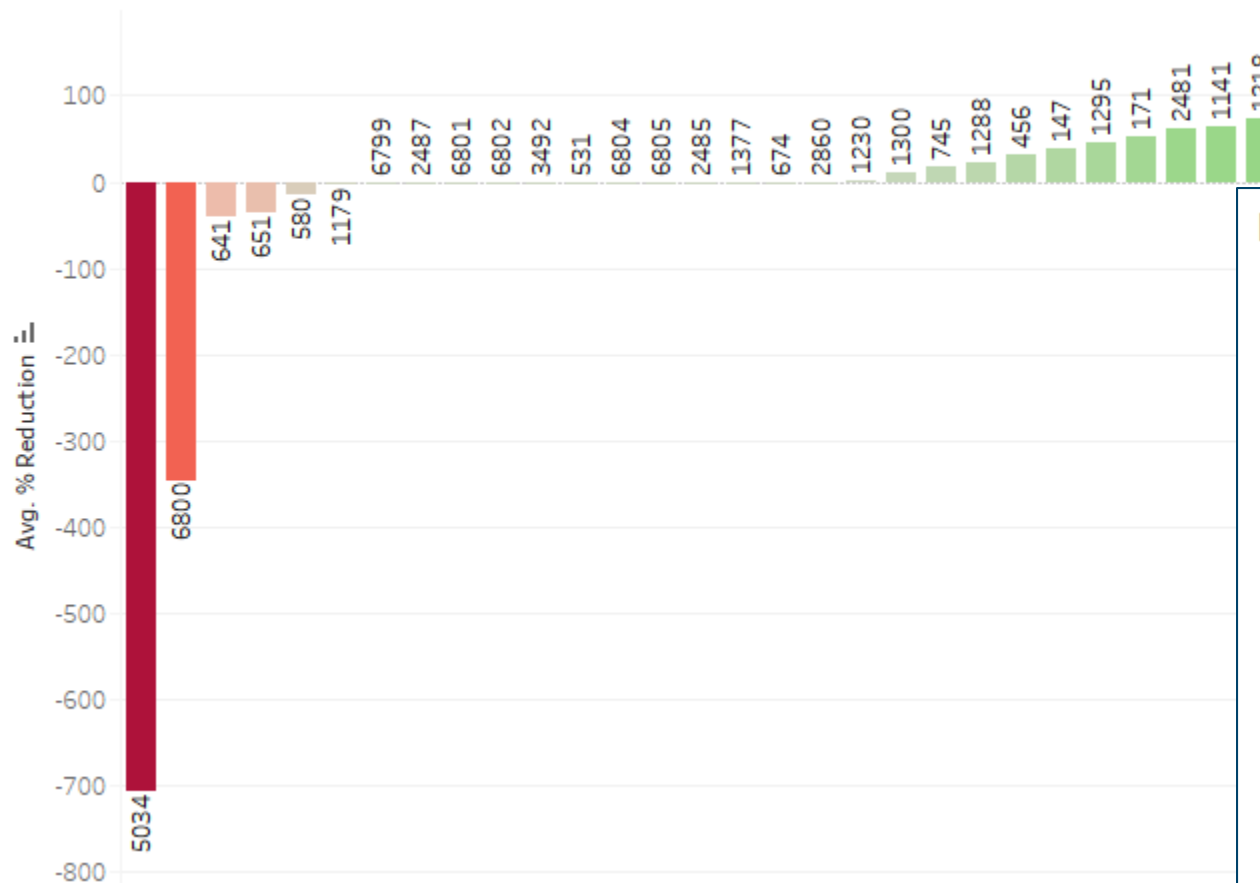

Rate **INCREASING**

Current Rate **LOWER**
than Baseline

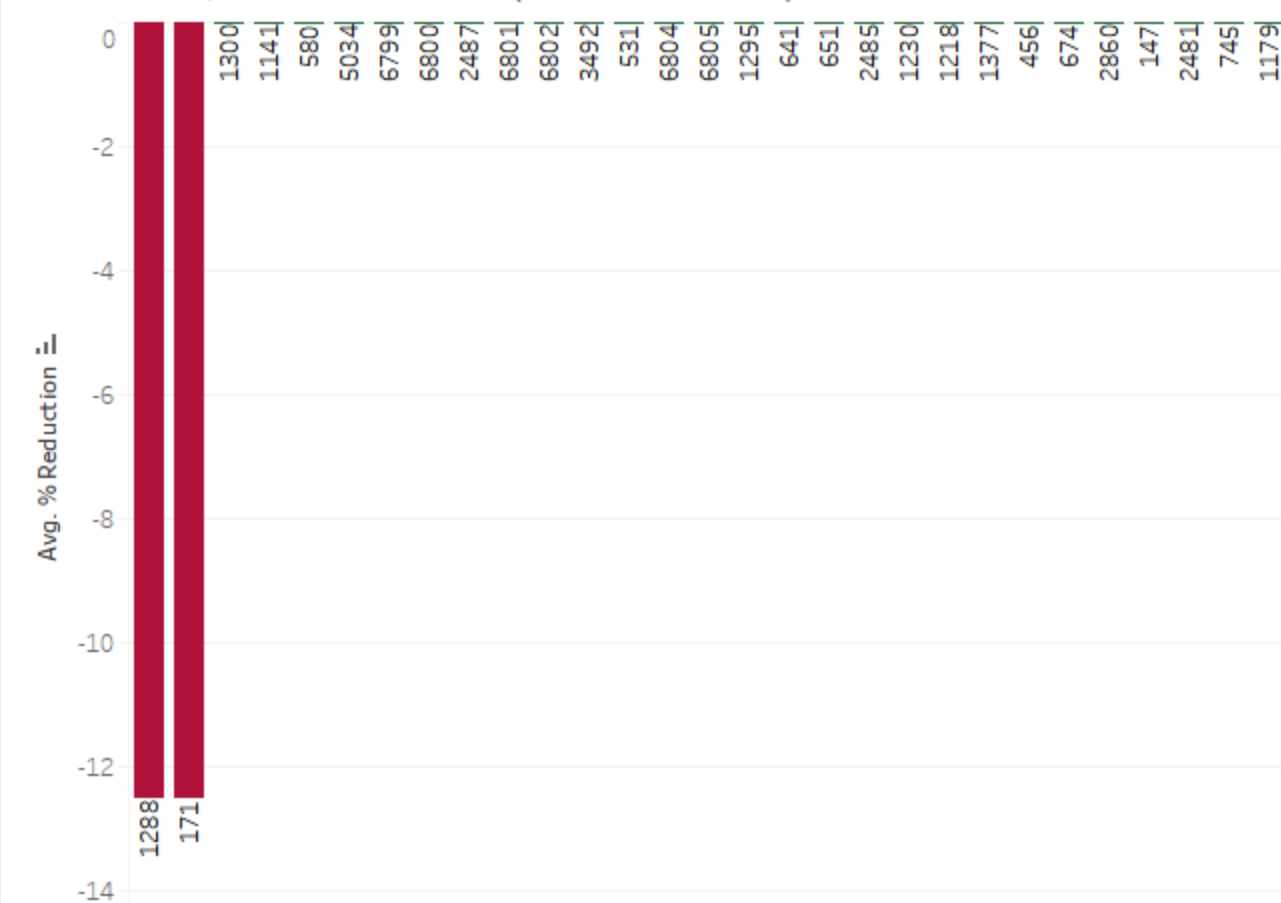

Baseline = 20 facilities

Central Line Utilization Ratio

MICAH Report: CLABSI-3a (utilization - all units)

MICAH Report: CLABSI-2a (rate - all units)
