

Adapting Produce Prescription Programs for Tribal and Rural Communities

WITH THE FOOD FARMACY PROGRAM

Presenters

Carlyn Arteaga, MSW

Evaluation Coordinator Center for Healthy Communities Michigan Public Health Institute

Laura Fisher, MSA, ADA

Director Health Education and Chronic Disease Inter-Tribal Council of Michigan, Inc.

ITCM

Our mission is to serve as a forum and advocate for Michigan's Native American tribes, improving their economy, education, and quality of life, while providing technical assistance and promoting health equity through culturally appropriate programs.

Through this project, the Health Education and Chronic Disease Department addressed youth and adult nutrition related health disparities through screening of food insecurity, weight management, and related chronic disease. With a focus to increase fruit and vegetable consumption to support culturally appropriate healthy behavior change through access to healthy traditional foods along with nutrition education. The project's focus was to improve overall health outcomes through the development of lifelong healthy eating habits.

Participating Tribes

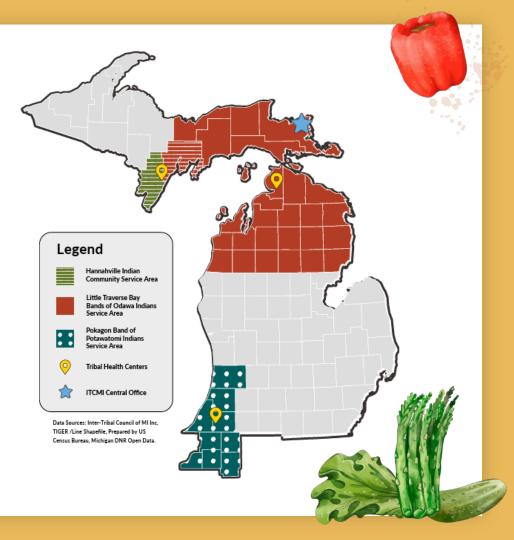

Hannahville Indian Community

Little Traverse Bay Bands of Odawa Indians

Pokagon Band of Potawatomi Indians

Program Goals

INCREASE...

- Fruit and Vegetable consumption
- Nutrition and traditional food prep knowledge
- Collaboration between Tribal community health programs, health clinics, and community food systems
- Self-management of chronic disease through healthy lifestyle

DECREASE...

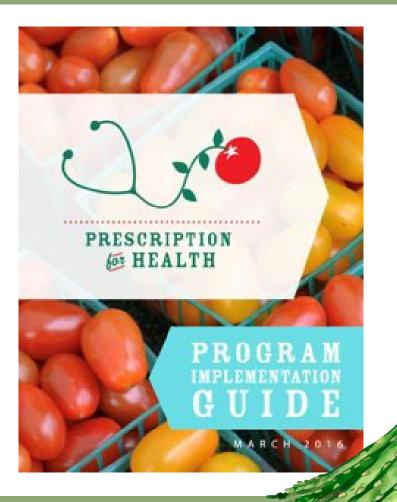

- Yeood insecurity
- Chronic disease and related symptoms

The Model

Washtenaw County Health **Department Prescription for** Health

Hannahville Indian Community

TRIBE SPOTLIGHT

Kelly Hansen Health Educator Hannahville Health Center

Patient receives call from Kelly/Tonya, or is told about the program by a provider

Patient contacts Kelly/Tonya to sign up for an orientation session

Enrollment Session

Patient attends orientation session, signs paper consent form, and fills out the preprogram survey on tablet or computer via REDCap.

Data Entry

Kelly enters participant info and consent form into REDCap. Patient buys fresh fruits & vegetables

> Data Entry Create and complete REDCap Goal Tracking form for each visit.

/ Farmer's Market

Patient arrives at HIC Farmers Market or Massie's County Market.

Tonya reviews goals with patient and provides counseling & education.

Patients receive \$25 voucher at each session for 12 weeks. Token Tracking Each vendor writes on the back of voucher how much is redeemed at their booth.

Data Entry

Kelly reports in REDCap the amount (\$) of vouchers redeemed.

At last market visit, patient completes postsurvey via REDCap survey link.

Data Entry

Kelly completes exit form in REDCap to signal patient participation & data collection is complete.

Challenge

 Limited staff capacity (both health clinic and community health)

Lessons Learned

- Utilize REDCap for streamlined & centralized data collection
- Community health staff prompt provider for referral of eligible participants from patient chart review, overlap with existing programs, or community members interested through outreach

Little Traverse Bay Bands of Odawa Indians

MSKIK

Patient contacts Provider for a referral or arrives at the clinic for an appointment with provider, RD, Diabetes Educator, or Wellness Advocate.

Screen for Program Fit

1. Healthy food access barriers

2. At risk for Chronic disease

3. Interest and ability to eat more fresh fruits and vegetables and utilize identified markets

4. Pregnant or Breastfeeding

Refer Eligible Patients Provider initiates referral in EHR or RD, Diabetes Educator, or Wellness Advocate asks provider for a referral.

FF Staff schedules patients for a group enrollment session or enrolls in an individual enrollment session.

Data Entry

FF staff enters screening, referral, consent, and participant info in REDCap.

Enrollment Session

CHW hosts enrollment session & explains the program.

Patient completes pre-survey (online via REDCap), consent, and creates goals.

Patient receives first month's tokens, \$55/month for 18 visits or however many visits are left in the program at time of enrollment.

Data Entry

FF staff assigns participant a record in REDCap and prepares pre-survey code for enrollment.

Education Session/Voucher Pick Up

CHW reviews goals with patient and provides support and resources.

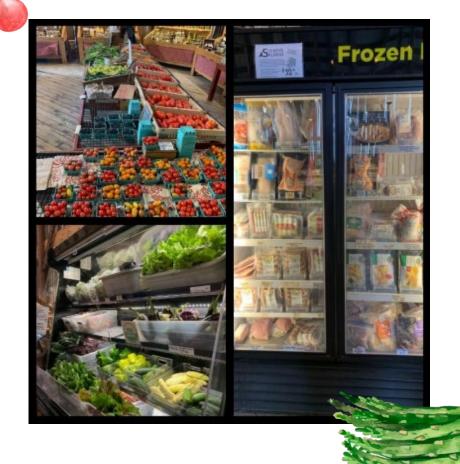

Track voucher redemption.

Patient will take mid-term and post-survey online via REDCap. FF staff complete exit form.

Challenges

- Large service area
- Long, continuously running program
- Limited staff and growing season

Lessons Learned

- 6 food source sites
- Live and recorded video education both for participants and food source staff
- Expand vouchers to include select proteins and grains
- Care Message

Pokagon Band of Potawatomi Indians

Elizabeth Leffler, RN

Community Health Nurse Supervisor Pokagon Health Services

Heather Hollenbeck, MA

Integrative Case Worker Pokagon Health Services

Patient arrives at the clinic for an appointment

Screen for Program Fit

1. Chronic disease risk: Obesity, Overweight, CVD, Htn, Hyperlipemia, DM/Pre-DM, lack of movement

2. Interest and ability to shop at the farmer's market (Mandatory)

3. Food insecurity

Refer Eligible Patients

Provider discusses w/ patient, writes referral, and collects consent form.

CH Supervisor processes referral and schedules patient for enrollment session. Data Entry HWA enters pre-survey

into REDCap.

Enrollment Session

HWA hosts enrollment session & explains the program including opting into Care Messaging.

If consent was already completed, HWA calls patient to complete pre-survey and enters in REDcap. If consent was not completed with provider, consent and pre-survey are completed at enrollment.

Patient schedules education sessions.

Data Entry

HWA creates new participant record and enters participant info, screening, referral, and consent in REDCap (if consent was collected at appointment). **Ongoing Engagement**

Patient attends education sessions with HWA and receives \$20 worth of tokens per visit for 5 total visits.

Patient receives regular Care Messaging and potted plants to grow at home.

Patient arrives at the food source of their choice and buys fresh fruits, vegetables, healthy protein, and eggs.

Data Entry

HWA enters education sessions, token distribution, special event attendance, token redemption in REDCap and uploads Care Messaging reports to REDCap.

Data Entry

HWA calls patients to collect and enter post-surveys & exit forms in REDCap.

Challenges

- Establishing referral pathway
- Participants completing program enrollment and participation

\$2 MARKET COUPON

Redeem for fresh and frozen fruits, vegetables, and eggs.

PIN:___

Expires: Dec. 31, 2022

POKAGON HEALTH SERVICES

REDEEM AT:

Dussel's 21765 Michigan 60 Cassopolis, MI 49031 (269) 445-8715

Kelsey Lake Market 22599 Kelsey Lake St. Cassopolis, MI 49031 (269) 251-7785

Wright Farm Market 57470 M-51 South Dowagiac, MI 49047 (269) 259-1223

MICHIGAN HEALTH ENDOWMENT FUND

Lessons Learned

- Enrollment on a rolling basis
- Continued outreach to health clinic staff
- Outreach at popular community events
- Potted plant incentive
