CAH INFRASTRUCTURE 2024 REVIEW

- **What:** The CAH Assessment and Inventory MBQIP measure will provide state and national comparison information to assess your CAH infrastructure, QI processes, and areas of improvement for each facility. An Individualized report was sent to you last week with your hospitals results.

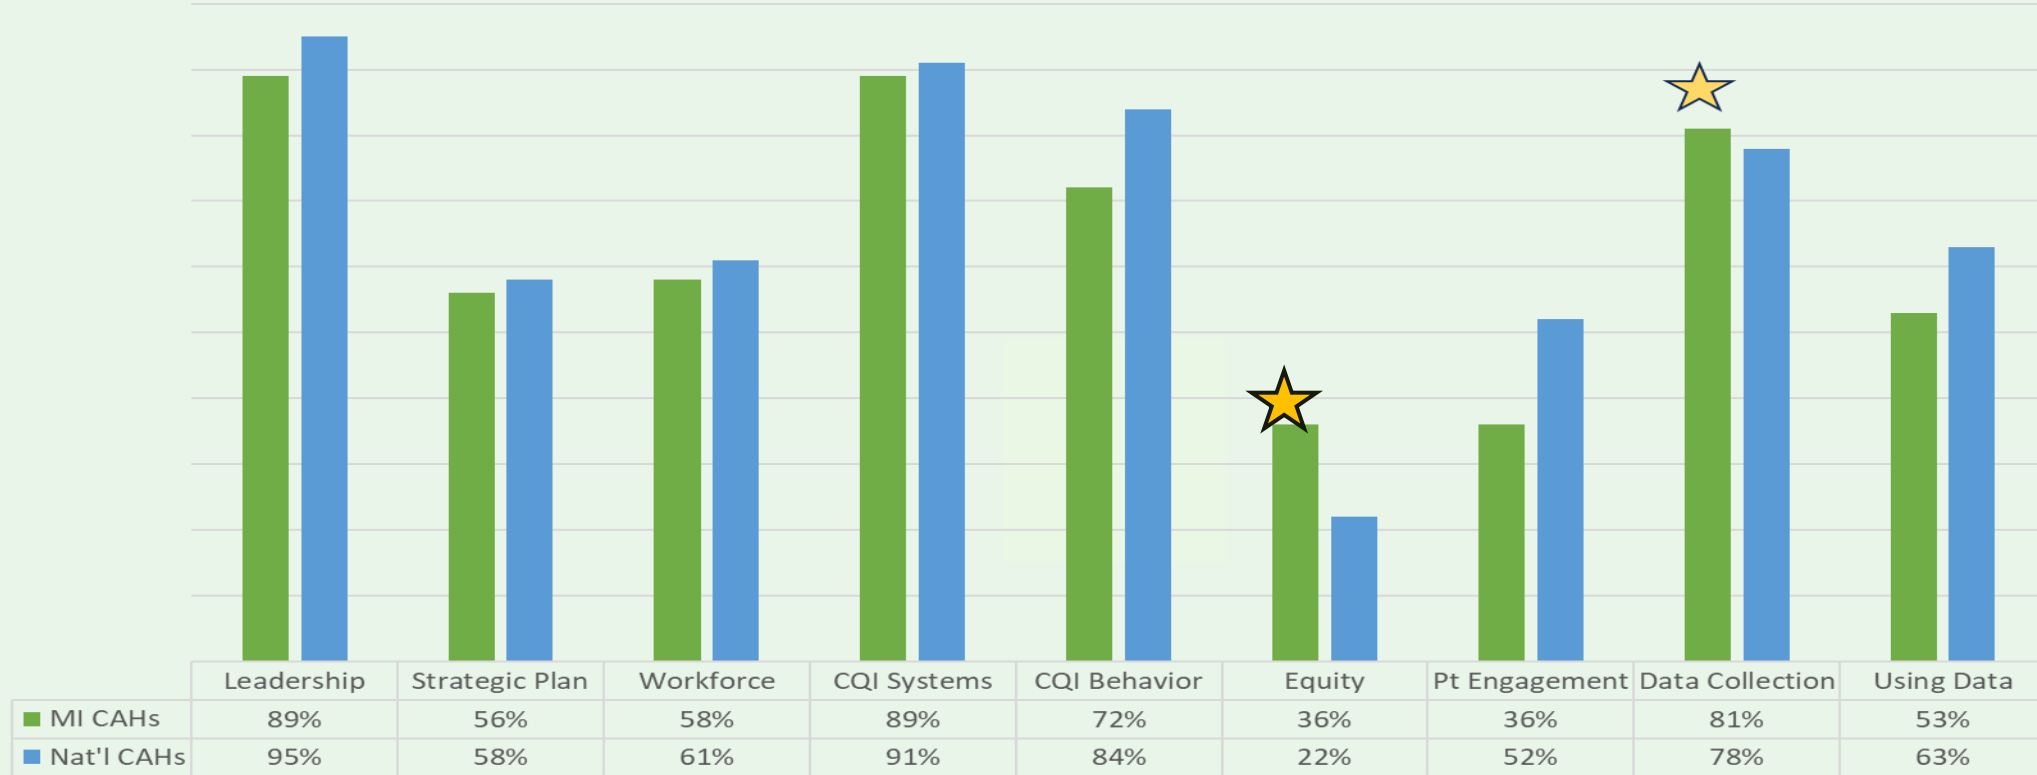

Why: Using this measure, MCRH and MICAH QN can plan quality activities to improve CAH quality infrastructure. Data will provide timely, accurate, and useful CAH quality-related information to help inform state-level technical assistance for CAH improvement activities. This measure will provide hospital and state specific information to help inform the future of MBQIP and national technical assistance and data analytic needs.
