

American Heart Association Rural Health Care Outcomes Accelerator

**Michigan Center for Rural Health
February 27, 2025**

Agenda

- Michigan Center for Rural Health & American Heart Association Collaboration Goals
- AHA Rural Quality Team Introductions
- AHA Rural Health Care Outcomes Accelerator Participant Benefits
- Leveraging Get With The Guidelines® - Stroke, Coronary Artery Disease (CAD) and Heart Failure performance measures to support rapid translation of clinical practice guidelines and outcomes progress
- Michigan Rural Participating Hospital Model Shares
- Enrollment Next Steps
- Q & A

MI Rural Health Care Quality Team

Mindy Cook
National Senior Director
Rural Health Care Quality

Natalie Spitzer
Program Consultant
Rural Health Care Quality

Rural Health Care Outcomes Accelerator

Enrollment open until June 30, 2025

Working to ensure Americans living in rural areas have the best possible chance of survival and the highest quality of life attainable by promoting consistent, timely and appropriate evidence-based care.

Taking on the Rural Health Inequity

Recent data shows a concerning trend: People living in rural communities live an average of three years fewer than their urban counterparts and have a 40% higher likelihood of developing heart disease—a gap that has grown in the past decade. Plus, rural residents are at a 30% higher risk of stroke.

Eligibility

- ✓ Critical Access Hospital
- ✓ Rural Emergency Hospital
- ✓ Geographically Rural Short-Term Acute Care Hospitals [Am I Rural? Tool](#)
- ✓ New enrollment in Get with the Guidelines® - Stroke, Coronary Artery Disease (CAD) and/or Heart Failure

Participant Benefits

- **No Cost GWTG® - Stroke, CAD, and/or HF for 2025, 2026, 2027**
- 1:1 Rural Quality Improvement Hospital Consultation
- Professional Continuing Education Courses
- Community Education Materials
- Quarterly Stroke and Cardiac Rural Learning Collaboratives
- American Heart Association Professional Membership
- American Heart Association Rural Community Network
- GWTG® Stroke and Cardiac Rural Performance Measures and Award Recognition

Pathfinders for the road ahead

Hospital Demographics

- Critical Access Hospital
- Located in Shelby, MI
- Serves Oceana County, MI – Population 26,000
 - 2010-2020 County 35+ Age-Adjusted Rate per 100,000 Heart Disease/Stroke Deaths 422.9/100,000
- 7-bed Emergency Department (ED)
- Level IV Trauma Center
- DNV Certified Acute Stroke Ready Hospital
- Accredited Chest Pain Center
- Named in Top 100 Rural & Community Hospitals in the United States by The Chartis Center for Rural Health

24 Acute Care Beds	205 Employees (FTE)	4 Primary Care Medical Offices
405 Discharges	40 Inpatient Surgeries	171 Outpatient Surgeries
10,531 ED Visits	\$46M Annual Revenue

Why GWTG?

- Opportunity to collaborate with AHA –
 - Rural Disparity
- Rural Accelerator opportunity to receive no-cost Get With The Guidelines
- Metric Outcomes
- Stay current on latest Stroke guidelines
 - Rural Health Care Outcomes Accelerator
- Recognition opportunities

2025
HOSPITAL RECOGNITION CRITERIA
(based on 2024 data)

Rural Acute Stroke Composite Score
Criteria: At least 75% Compliance

GOLD

Eight or more consecutive quarters and ≥ 2 stroke or TIA records annually

SILVER

Four consecutive quarters and ≥ 2 stroke or TIA records annually

BRONZE

One calendar quarter and ≥ 1 stroke or TIA record per quarter

Time to Intravenous Thrombolytic Therapy ≤ 60 minutes (AHA STR13)

Door-In/Door-Out Time at First Hospital Prior to Transfer for Acute Therapy ≤ 90 Minutes (AHA STR27)

National Institutes of Health Stroke Scale (NIHSS) Reported (AHA STR10)

Door to CT ≤ 25 min (AHA STR305)

Dysphagia Screen (AHA STR306)

Documentation of Last Known Well or Time of Discovery of Stroke Symptoms (AHA STR270)

IV Thrombolytic Therapy Arrive by 3.5 Hours Treat by 4.5 Hours (AHA STR5)

EMS Pre-notification (AHA STR39)

Non-Contrast Brain CT or MRI Interpreted Within 45 Minutes of Arrival (AHA STR272)

Stroke Consultation Done (AHA STR307)

Eligible Hospitals

Federally Designated Critical Access Hospitals or Short Term Acute Care Hospitals within Rural Urban Commuting Areas (RUCA) geographically classified as large rural, small rural or isolated.

HOSPITAL RECOGNITION CRITERIA
(based on 2024 data)

ACHIEVEMENT MEASURES >85% OR GREATER

GOLD

2 consecutive calendar years

SILVER

1 calendar year

BRONZE

1 calendar quarter and ≥30 patients

QUALITY MEASURES + AWARD

≥75% on at least 4 measures

*Must achieve Silver or Gold to be eligible

Dysphagia Screening (AHA5TR8)

Stroke Education (AHA5TR12)

Assessed for Rehabilitation (AHA5TR11)

LDL Documented (AHA5TR9)

NIHSS Reported (AHA5TR10)

Door to Needle ≤60 minutes (AHA5TR13)

TARGET: STROKE

(Minimum of 6 patients to be eligible)

HONOR ROLL

75% of applicable patients (AHA5TR13)

Door-to-Needle ≤60 minutes

HONOR ROLL ELITE

85% of applicable patients (AHA5TR13)

Door-to-Needle ≤60 minutes

HONOR ROLL ELITE PLUS

75% of applicable patients & 50% of applicable patients

Door-to-Needle ≤45 minutes
(AHA5TR49)

Door-to-Needle ≤30 minutes
(AHA5TR48)

HONOR ROLL ADVANCED THERAPY

50% of applicable patients

Door-to-Device ≤90 minutes for Direct Arriving Patients & ≤60 minutes for Transfer Patients (Within 6 hours or 24 hours)
(AHA5TR114 & AHA5TR115)

Identifying Patient Populations for Reporting

GWTG-Stroke, GWTG-Coronary Artery Disease and GWTG-Heart Failure

GWTG-Stroke

Required

Patients with a diagnosis of:

- Cerebral Infarction
- Ischemic Stroke
- Intracerebral Hemorrhage (non-traumatic)
- Subarachnoid Hemorrhage (non-traumatic)

Optional

- Transient Ischemic Attack (TIA)
- No Stroke Related Diagnosis (Stroke mimics)
- Subclinical (Last Known Well >24-48 hours)
- Inpatient Stroke (admitted with another principal condition)

GWTG-CAD

Required

Patients with a diagnosis of:

- STEMI (ST Elevation Myocardial Infarction)

Optional

- Patients with NSTEMI (Non-ST Elevation Myocardial Infarction)
- Non-Traumatic Cardiac Chest Pain
- Suspected Acute Coronary Syndrome

GWTG-HF

Required

Patients admitted with a principal diagnosis of:

- Heart Failure with CAD
- Heart Failure with no CAD

Optional

- Secondary diagnosis of Heart Failure
- Or treated in Observation or ED

Get with the Guidelines[®]

Rural Hospital Data Analytics

3 Pathways for Data Submission:

- Direct Data Entry**
 Most common option for rural and/or low-volume hospitals. Relevant patient information is abstracted manually from EMR into GWTG[®]
- Data Upload**
 AHA can provide technical specifications to share with hospital IT resources. Hospitals using this option can build a CSV file to upload partial patient charts into GWTG[®] directly from their EMR
- Third Party Vendor**
 Contract with an external data vendor to have data entered into hospital's GWTG[®] account
Get With The Guidelines[®] Compatible Vendors

	Estimated Time per chart (hours)	Annual Cases	Monthly Data Entry Hours
Stroke	0.6	24	1.2
CAD	0.4	20	0.7
Heart Failure	0.5	18	0.8

How to Run Get With The Guidelines®-Stroke Rural Stroke Recognition Report

The steps outlined in this document will provide instruction on how to pull a Rural Stroke Achievement report within the Get With The Guidelines®-Stroke IQVIA Registry Platform (IRP). The reports can provide insight on a participating facility's compliance and Rural Acute Stroke award recognition progress.

4 An Overall Rural Stroke Composite Score of $\geq 75\%$ is required for the time of compliance to achieve Rural Stroke Recognition.

Once the report is generated, it can be exported, saved, and/or printed by clicking **File** in the upper left corner.

5 To view all 10 individual Rural Acute Stroke Measures, Select **Rural Stroke Achievement Measures**, Select the Measure Group: **Rural Stroke Achievement Measures**

If you'd like the measures to display together Select: **Display Options Graph Similar Measures**

1 From the **Community Page** under **Get Started**, select **Reports**. Under **Configurable Reports** select **Get With The Guidelines®-Stroke Measures Report**

2 Select the desired reporting period for the report. Interval options include annual, monthly, quarterly, or daily. Check the **Aggregate Data** box to have the selected time reflected as one interval.

3 The **Rural Stroke Achievement Measures** **Rural Stroke Composite Measure** and 10 individual Rural Acute Stroke component measures. Select the **Rural Acute Stroke Composite Measure** and **Apply Parameters**.

Heart Failure Rural Composite Score Measure Achievement Goal:
At least 60% Compliance

GOLD
 Eight or more consecutive quarters and ≥ 2 HF records annually

SILVER
 Four consecutive quarters and ≥ 2 HF records annually

BRONZE
 One calendar quarter and ≥ 1 HF record per quarter

Evidence-Based Beta Blocker Prescribed at Discharge (AHAHF2)

Left Ventricular Function Assessed (AHAHF3)

Post-Discharge Appointment for Heart Failure Patients (AHAHF4)

Angiotensin Receptor Neprilysin Inhibitor (ARNi) at Discharge (AHAHF6)

SGLT-2 Inhibitor at Discharge for Patients with HFrEF (LVEF $\leq 40\%$) (AHAHF93)

Mineralocorticoid Receptor Antagonist (MRA) at Discharge for Patients with HFrEF (LVEF $\leq 40\%$) (AHAHF110)

Eligible Hospitals

Federally Designated Critical Access Hospitals or Short Term Acute Care Hospitals within Rural Urban Commuting Areas (RUCA) geographically classified as large rural, small rural or isolated.

Rural Accelerator Participation

Contracting

Execute the Unified Participation Agreement (UPA) for the GWTG Stroke, CAD and/or HF Program(s) selected

Execute the Rural Health Care Outcomes Accelerator Participation Agreement (RPA)

Data Schedule

Begin GWTG data entry of eligible patients by designating staff to support GWTG data analytics within 60 days of enrollment

Remain compliant with quarterly data submission deadlines as requested by the Rural Quality Improvement team

Ongoing Support

Commit to attending one or more GWTG-Stroke Onboarding Sessions

Designate at least one hospital team member to participate in Rural Learning Collaboratives

Connect or meet with AHA Rural Quality Improvement Consultant as needed

Additional Benefits

Attend GWTG-Stroke, CAD and HF Webinars

Participate in the Rural Community Online Network

Designate up to 2 Individuals for AHA Professional Membership

Next Steps

- Discuss GWTG Enrollment at no cost via the Rural Accelerator Opportunity with your decision makers
- Begin enrollment by reaching out to: Natalie.Spitzer@heart.org

Grants available until June 30, 2025
