

# Transform Kidney Care in Michigan with our New Dashboard!

The National Kidney Foundation of Michigan (NKFM) is proud to announce the launch of the Kidney Disease Interactive Medicaid Dashboard, part of the Morris Hood III CKD and COVID-19 Complications Prevention Initiative. This state-of-the-art tool provides vital data on chronic kidney disease (CKD) screening, prevalence, and trends in Michigan, helping policymakers, healthcare providers, and community organizations identify where programs and services are most needed.

## Dashboard Features:

- Information on CKD screening, prevalence, and trends.
- Insights into CKD risk factors: diabetes, hypertension, and social determinants of health.
- Cost Estimates Tab: Shows the measure of the financial burden to Michigan's Medicaid program of CKD and its risk factors.
- Data from the Behavioral Risk Factor Surveillance System, Medicare, and Michigan Medicine.

## Access the Dashboard:

- Visit: [www.nkfm.org/CKDDashboard](http://www.nkfm.org/CKDDashboard)
- Password: CKDDashboard24\*
- Feel free to share the Dashboard link and password with trusted network members. For large-scale sharing, please connect with us first.

Join us in the fight against kidney disease!
