

Dear Participant:

The Veteran Well-Being (V3) Lab aims to improve rural enrollment, access, and health for Veterans and their caregivers living in rural areas by implementing Veteran-oriented and culturally sensitive strategies. Therefore, you are being asked to participate in our Veteran-friendly work to identify barriers, challenges, and facilitators in healthcare access among Veterans living in rural areas. There are three eligibility categories in this research. If anyone of the below conditions apply to you, you are eligible to participate in this work.

You are eligible for this study if you are:

- a. A Veteran who is 18 years old or older and living in a rural area in the U.S.
- b. A caregiver to a Veteran who is 18 years old or older and living in a rural area in the U.S.
- c. A healthcare or rehabilitation provider providing services for those living in a rural area in the U.S.

There is no cost for you to join this study. The first 150 participants will receive a \$10 gift card in exchange for their participation. You will be asked to provide your email address to send the gift card directly to you.

If you have concerns or questions about this study, such as scientific issues, how to do any part of it, or to report an injury, please contact the researcher Dr. Emre Umucu via umucuemr@msu.edu.
