Summary

In March of 2010 the Patient Protection and Affordable Care Act (PPACA) was signed into law. The new legislation outlined new requirements for all non-profit, § 501(c)(3) hospitals. For taxable years after March 23, 2010, in addition to the Community Benefits Report, hospitals are required to prepare a Community Health Needs Assessment (CHNA) at least once every three taxable years. This CHNA must include an in-depth analysis of your community’s needs and an implementation strategy outlining how you propose to address those needs in the coming years. The CHNA can be used as a great tool to identify and prioritize a community’s health needs by collecting and analyzing data, including input from community stakeholders who represent the broad interests for the community. After the hospital has determined the priority health needs of the community, they are required to formally adopt an implementation plan to address the said needs. Failure to do so will result in a $50,000 excise tax penalty that will be applied to the non-compliant hospital facility within the organization.

The Michigan Center for Rural Health in concurrence with the Michigan State University College of Human Medicine’s Division of Public Health created this report implement a reference guide for all rural non-profit hospital’s health priorities in the state of Michigan. The report includes a detailed account of all 62 rural counties in Michigan. The health priorities within each county are directly taken from the corresponding hospital’s CHNA. Along with the priorities you may see any anecdotal notes regarding the CHNA provided by the hospital. A hyperlink to the CHNA has also been provided. In an effort to provide more data for the county, four years of the Robert Wood Johnson Foundation’s overall county health rankings (2014-2018) has been provided for health factors and health outcomes as well as the last four years of Kid’s Count data from the Annie E. Casey Foundation.

Methodology

The systematic review of community health needs assessment (CHNA) was performed for each corresponding hospital within the rural counties of Michigan. Rurality was determined by Health Resource and Services Administration (HRSA) guidelines. According to the guidelines within the Affordable Care Act, every CHNA is required to determine a list of health priorities that the county will focus on. By careful review of each hospitals CHNA, the priorities of the community were located. The lists of counties were organized by the Michigan Department of Technology, Management, and Budget’s prosperity regions\textsuperscript{10}. The stratification should assist in regional support and the determination of regional needs. County health rankings were obtained through the annual report released by the Robert Wood Johnson Foundation and the University of Wisconsin Population Health Institute. Kids Count data was obtained through the Michigan League for Public Policy and the Annie E. Casey Foundation. Median age and Median household income was obtained through the data set Infographics were obtained using Tableau software. Data sets can be obtained via request at snowdoug@msu.edu or at the Michigan Center for Rural Health.
Region 1a
Baraga County

1. Baraga County Memorial Hospital CHNA (2015)
   a. Link to CHNA
   b. Assessment is a region CHNA- Western Upper Peninsula Health Needs Assessment
   c. Priorities
      i. Access to care
      ii. Maternal, Infant and Child Health
      iii. Infectious Disease
      iv. Chronic Disease
      v. Substance Abuse and Public Safety

2. Additional Health Concerns/Comments
   a. Impact of an aging population on health needs because age is a primary risk factor for chronic disease
   b. Importance of prevention of the root causes of preventable chronic disease – chief among them tobacco use, obesity, and the abuse of alcohol and other drugs
   c. Correlation between the low socio-economic status of individuals and poor health
   d. Lowered unemployment rate, children in poverty, number of births paid by Medicaid
   e. Increased in percentage of mothers who smoked during pregnancy, number of diabetes-related mortality, stroke mortality rates

3. County Health Rankings

Ontonagon County

1. **Aspirus Ontonagon Hospital (2016)**
   a. **Link to CHNA**
   b. Priorities were found through the Western Upper Peninsula Health Needs Assessment in 2015.
   c. Identical to the Aspirus Grand View Hospital, Aspirus Iron River Hospital and Clinics, and Aspirus Ontonagon CHNA
   d. Priorities
      i. The impact of an aging population*
      ii. The importance of prevention
      iii. The powerful correlation between socio-economic status and poor health
iv. Expanded access to care via the evolving Affordable Care Act
* Typo within the CHNA, lists the importance of prevention as number 1 and 2 for priorities. Because it is identical to other Western UP Aspirus hospitals, assumption is made to aging population.

2. Additional Health Concerns/Comments
   a. Focus human resources on local public relations on healthy eating and nutrition within the community.
   b. Develop fitness and exercise programs especially focusing on demographic over 65 years old.
   c. Continue to support diabetes education programs, expanding to include diabetes patients that are tobacco users.
   d. Increase the “how-to” information regarding positive disease prevention behaviors and access to services
   e. Reach more businesses and government officials to help direct policy changes for the better health of the community.

**Region 1b**

**Alger County**

1. Munising Memorial Health CHNA (2016)
   a. [Link to CHNA]
   b. Data was provided by community leaders and two community meetings, one with entire community, and the other council on aging
   c. Priorities
      i. Lack of medical, dental, and mental health providers, especially for low income residents.
      ii. Lack of preventative health care services, or education about availability
      iii. Increased cost of prescription drugs
      iv. Obesity
      v. Changes in insurance and Medicare/Medicaid rules and regulations are both confusing for provider and patient.
1. Included is the implementation of the ACA and production of higher costs than anticipated.

vi. Substance Abuse

Delta County

1. OSF St. Francis Hospital & Medical Group CHNA (2016)

   a. Link to CHNA

   b. Priorities

      i. Healthy Behaviors – Defined as active living, healthy eating and their impact on obesity

      ii. Behavioral Health – Including mental health and substance abuse (only focused on alcohol)

   c. County Health Issues

      i. Demographics – Population is decreasing and becoming older/early sexual activity

      ii. Prevention Behaviors

         1. ED Usage
         2. Lack of care for low income
         3. Lack of exercise
         4. Mental Health
         5. Lack of healthy eating

      iii. Symptoms and Predictors

         1. Tobacco usage
         2. Substance abuse- Alcohol
         3. Obesity

      iv. Morbidity and Mortality

         1. Asthma
         2. Cancer
         3. Diabetes
         4. Heart Disease

   d. Potential Areas of Consideration for Priority

      i. Use of ED as primary source of care
ii. Not seeking healthcare when needed
iii. Poor healthy behaviors
iv. Mental Health
v. Obesity
vi. Tobacco/Alcohol Use
vii. Asthma/Diabetes/Heart Disease/Cancer

Schoolcraft County

1. Schoolcraft Memorial Hospital CHNA (2016)
   a. Link to CHNA
   b. Assessment contains findings from the Western UP Health Assessment as well as the Schoolcraft Memorial Hospital focus groups and community members. Where single county data was not available, neighboring county health districts data was obtained.
   c. Priorities
      i. Vulnerable Populations and Access to Care
      ii. Maternal, Infant and Child Health
      iii. Adolescent Health
      iv. Infectious Disease
      v. Chronic Disease and Mortality
   d. County Health Areas of Focus
      i. Parent education on nutrition, health, child development, job skills, and other topics to help strengthen families. Especially those caught in intergenerational poverty. Focusing on improving the health of the next generation
      ii. HPSA designation for mental health services, and primary care (and provider shortages for medical specialties)
      iii. A growing population of elderly residents, many living in rural isolation, with limited means, diminishing capabilities and chronic diseases

Mason County

1. **Spectrum Health- Ludington Hospital CHNA (2015)**
   a. [Link to CHNA (Link to PDF on bottom of web page)]
   b. CHNA was contracted out to VIP research and evaluation
   c. Priorities
      i. Access to healthcare services (primary care, preventative and ancillary services)
      ii. Lack of primary care, dental care, and mental health care for the underserved (uninsured, underinsured, Medicaid, low income)
iii. Coordination and collaboration of services and specialty and subspecialty services.

d. Other Health Concerns
   i. Transportation issues
   ii. High rates of chronic conditions (diabetes, angina/coronary heart disease, skin cancer)
   iii. Obesity (higher than state and federal average)
   iv. Risky behaviors (smoking)
   v. Healthy Behaviors (increasing fruit and vegetable consummation)

2. County Health Rankings
